[traviscottrell.herokuapp.com/](https://traviscottrell.herokuapp.com/)

I am a Computer Science undergraduate in my final semester. I bring to the table an eagerness to learn as well as a strong work ethic. I have a background in manufacturing and CNC programming from my work experience prior to college, giving me a different background than traditional Computer Science graduates. I like the outdoors and enjoy hiking and camping. I love technology, programming, and video games. I enjoy reading, and my favorite genre is fantasy.

## EXPERIENCE

### PROJECTS

#### IMAGE SEARCH WEBSITE

Users can search in several different ways for images with certain related information

- Utilizes – XAMPP, PHP, JavaScript, MySQL, Bootstrap

#### RELOADING DATA TRACKER

Users can enter related data into a dynamic html table
